**CERTIFICATE NUMBER:**

**1. COMPETENT AUTHORITY:**

**2. ORIGIN OF THE FISH:** [Processor name and registration number]  
[Address]

**3. PRODUCT DESCRIPTION:**

Species: [Scientific Name]  
State Product Presentation/form: [Description of product<sup>1</sup>]  
Number of units: [Number]  
Weight of units: [Weight in kg/lbs]  
Method of transport [Transport details<sup>2</sup>]  
Consignment details: [Insert consignment details for which this  
certificate applies<sup>3</sup>]

**4. CONSIGNOR :** [ Name and Address]

**5. CONSIGNEE:** [Name of Consignee and address at place of  
destination]

**6. HEALTH ATTESTATIONS:**

I, the undersigned official of the [ *Insert source country CA Name* ], declare with respect to the consignment of salmonid products to be exported to Australia described above that:

1. The fish were harvested from populations for which documented health surveillance programs exist which are administered by the [ *Insert responsible agency*].

2. The fish do not come from a farm infected by, or officially suspected of, infectious anaemia (ISA), or from waters within 10 km, or on tidal interchange of an infected farm.

3. The fish were not slaughtered as an official disease control measure as a result of an outbreak of disease.

4. The fish were (tick as appropriate)

☐ headed, gilled and gutted and the external and internal surfaces thoroughly washed

☐ gutted and the external and internal surfaces thoroughly washed

<sup>1</sup> Note: salmonid products imported in to Thailand can be either (a) head-off, gilled and gutted (b) head-on, gilled and gutted or (c) head, gills and guts on (whole round fish).

<sup>2</sup> For example, airplane, ship (include ship's name).

<sup>3</sup> E.g. any distinguishing marks on the boxes/consignment, container number, bill of lading number, commercial invoice number, preferential tariff certificate number, packing list number, letter of credit number, batch/serial number or date of manufacture

☐ exported as whole round fish.

5. The fish were individually inspected and graded, ensuring the product for export are free from visible lesions associated with infectious disease and deemed fit for human consumption.

6. The fish were found sexually immature, or sexually maturing, but not sexually mature (no fully developed roe).

7. The fish were found not to be juvenile salmonid fish.

8. The fish were processed, packed and stored in premises under the general supervision of the [ *insert responsible agency* ] which monitors the acceptability of processing of fish for export.
